**V-Veil-Up Production** is a European company that manufactures and sells the best patented self-sampling veil. The veil benefits from many scientific studies that compare it to the classic sampling method with swab.

With almost twice the ability to detect high-risk oncogenic papillomaviruses (HPV-HR) by multiplex real-time PCR, our veil and our kits offer women a better approach and the best product available on the market!

SUITABLE FOR:

**Doctors**

**Clinics**

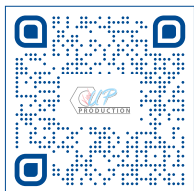

**Laboratories**

**Hospitals**

**NGOs**
